EnviroLogic® 31

Environmentally safe, general purpose lubricating and penetrating oil

Description

EnviroLogic® 31 is an environmentally and consumer safe multi-purpose lubricant for use in the office, at home, on the farm, on the sports field, or in the shop. **EnviroLogic® 31** lubricates, prevents rust and corrosion, cleans, polishes and protects all types of metals. **EnviroLogic® 31** offers the user a safe, multi-purpose lubricant alternative to those currently found commercially.

EnviroLogic® 31 can be used to:

- Prevent rust and corrosion on metal containing objects such as tools, sporting equipment, and guns.
- Lubricate moving parts such as wheels, bearings, gears, rollers, chains, and hinges.
- Penetrates frozen parts such as valves, bolts, and nuts.
- Clean surfaces of grease, tar, adhesives, tape, scuff marks, and crayon.

Yet the best thing is that **EnviroLogic® 31** is consumer and environmentally safe to use!

Typical Properties

Flash Point, °C	ASTM D-92	220
Specific Gravity, 60° F	ASTM D-1122	0.94
Viscosity @ 40° C, cSt	ASTM D-445	55.0

Performance Properties

	<u>EnviroLogic® 31</u>	<u>Competitive Penetrating Oil</u>	<u>Spec. VVL-80A</u>	<u>Spec. MIL-L-21260A</u>	<u>Spec. MIL-L-3150B</u>
<u>Humidity Cabinet Rust (ASTM D-1748)</u>	Pass @ > 1008 hrs.	Fail @ 168 hrs.	192	720	
--					
<u>Salt Fog Test (B-117)</u>	> 100 hrs.	< 75 hrs.	--	--	> 48 hrs.
